Remy Introduces New Line of Starters and Alternators for Sprinter Vans

MCHEMRY, III., Oct. 26, 2017 – Remy Power Products announces it has added a new line of starter and alternator part numbers for 2002 to 2016 Sprinter van applications.

“Remy is recognized as the aftermarket leader in coverage for starters and alternators,” said Christopher Gann, director of product management for Remy Power Products. “With the new part numbers for late model vehicle applications, we have built a comprehensive portfolio of starters and alternators for Sprinter vans.”

Remy starters and alternators for Sprinter vans are made for the aftermarket with the same precision as the original equipment. Designed to fit perfectly and perform flawlessly, they are as good, or better, than the parts they replace.

Features of Remy starters and alternators for Sprinter vans include:

- Manufactured to meet or exceed OE specifications for improved reliability and increased durability in all conditions
- 100 percent new premium replacement components that offer the quality and performance that professional service technicians can trust
- Designed to handle the electrical loads of today’s Sprinter van applications

Remy’s technical support is available to answer questions about starters and alternators for Sprinter van applications, such as part number identification and electrical system troubleshooting, by calling 800-854-0076 between 8 a.m. and 7 p.m. EST, Monday through Friday, or emailing TCS@remyinc.com.

For quality starters and alternators trusted by automotive service professionals, visit www.remyautoparts.com or contact a local Remy sales representative.

About Remy Power Products

Remy Power Products brings a century of OE experience to the automotive aftermarket, delivering industry-leading starter and alternator coverage for domestic and import passenger vehicles. Automotive service professionals trust Remy for benchmark-quality rotating electrics, responsive support and world-class technical training. Maval Industries, LLC, a Remy brand, is a world leader of both new and remanufactured steering system components for the automotive, off-road, performance and specialty vehicle markets.
