BBB INDUSTRIES EXPANDS COMMERCIAL VEHICLE PROGRAM

DAPHNE, ALABAMA: – BBB Industries, LLC (BBB), continues to expand its replacement parts offering for medium and heavy-duty commercial vehicles and will be showcasing its products during the 2019 Heavy Duty Aftermarket Week tradeshow at booth No. 915.

Cory Beeler, BBB's CV Traditional Sales Director, noted, "We are pleased to add remanufactured turbochargers to our commercial vehicle program. As an ISO 9001:2008 certified remanufacturer, our quality meets or exceeds OEM specifications." Beeler further commented, "No matter the application, you can always count on our commercial vehicle products meeting or exceeding OE fit and function, exceptionally low return rates, award-winning customer support and comprehensive coverage and tools to help you install, troubleshoot and sell our products."

BBB's Commercial Vehicle Program delivers a complete offering of premium remanufactured starters, alternators, hydraulic and air disc brake calipers, and turbochargers for all classes of commercial vehicles, including specialty segments. With our world-class manufacturing facilities, strategically located distribution centers and extensive product offering, BBB Industries offers a business philosophy rooted in continuous improvement and customer service that is unparalleled in the Commercial Vehicle aftermarket industry.
